***Detailed Action***

***Allowable Subject Matter***

Claims 1-3, 5-29, 32-37, 39, 41 and 43-49 are allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts (alone or in combination) teach all of the claim limitations together within the independent claims 1, 33 and 45-49. The claimed invention describes an SDP (service discovery protocol) within Bluetooth™ with personal profile information. When a first Bluetooth™ enabled device communicates with a second Bluetooth™ enabled device, a generic portion of the personal profile information is revealed to the second device, when a first level of "close matching" is detected. If the two devices have a second level of "close matching," private information from the personal profile within the SDP is revealed to the second device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
